I was surprised that my second drug was not available. Need a prescription to get it I was very disappointed as it was for the muscle spasms in my back. I try a few different drugs in the store but they didn't work. It took several hours for a specialist to call me and get it I have had a difficult time finding my prescriptions lately, even though my name is in the system I have always had a problem getting the correct prescription or any prescription for that matter. They have been throwing out generic prescriptions and leaving the name of the original prescription. That is not good when you are so sick. I have gone through two. I always choose pharmacyclub to get my drugs since they have a central refill number. I use your pharmacy and had no issues at all. I ordered my prescription from the internet a few weeks ago. My whole family has been suffering with colds and allergies for several weeks. We went to a local store and they would not fill my prescription, which they didn't have. I got it at a nearby pharmacy. Excellent service. Thanks. I have ordered a number of times from your store and have been pleased with the service and cost. I especially appreciate the excellent customer service! The lady at the counter explained to me in detail what would and would not be covered and assured me of the excellent quality of the medications that I ordered. What more could a person ask for? I had a situation where a friend was experiencing the agony of her period. I ordered them for her but they were not covered by insurance. I spoke with my pharmacist and she ordered them for me and made sure I knew that I would be responsible for them as well. They arrived when they were supposed to. Thank you, my husband and I appreciate it! The only reason I give 3 stars is because of the shipping time. It took me over 2 weeks to get my 3 prescriptions. I called every day and was told it would be 3 to 5 days and then 10 days. It took 20 days. I 2d92ce491b
