We want to open this link: How to do that? A: Might be this: Subscribers only Search Play Store! A: If you have facebook, go to the app, and ask friends to send you a link to the file you want. I know it's weird, but it works. Download and install Adobe Reader X32, it's a fake version. After you open the software, click the option button, look for "Edit", and look for "Save current document offline", download the file. Then go to the link you got from facebook, and look for the fake document, and open it with the software you installed. Maybe it will not work, because the link from facebook may be fake, and the file in the link may be fake too, but... so you are left without the file, and the App can't open it (or it can be, but you have no idea wich one) N1)\mbox{ -Bieberbach group} }\$.
