A: If you just purchased Guild Wars 2 from the official site, you will be given a serial code, which you can then enter into GW2 to unlock the game. If you bought GW2 elsewhere, contact the purchase place for assistance. Q: Converting a comma separated string to JSON in Swift I have a JSON string (list of dictionaries) that is returned by a server and I need to convert it into a JSON array using Swift. How can I convert the following json string into an array using Swift?

```
    {"total_pairs":1,"pairs":[  
    {"date":"7/15/2014","time":"8:00PM","pid":"1","bid":10},
```

---

```
{ "date": "7/15/2014", "time": "8:00PM", "pid": "1", "bid": 20 } ] } The
following is my code so far func JSON2Array(jsonStr:String) -> Array
{ var array:Array = Array() do { let json = try
NSJSONSerialization.JSONObjectWithData(NSData(contentsOfURL:
NSURL(string:jsonStr) as! NSURL)!, options:
NSJSONReadingOptions.MutableContainers) as! NSDictionary for
(key, value) in json { var jsonObject = AnyObject() if let pair = key
as! String? { jsonObject.setValue(value as! NSObject, forKey: pair as!
String) } array.append(jsonObject) } } catch {
```

Guild Wars 2 - no serial code I can't get my serial code to work

Frequently Asked Questions Q: Is there a serial code for my purchase of Guild Wars 2? A: No, there is no serial code for your purchase of Guild Wars 2. You can receive a serial code from your purchase by contacting our Customer Service team by emailing [support@standingstonegames.com](mailto:support@standingstonegames.com). Q: I've been trying to register my serial key for quite some time now, but I cannot get one! A: We cannot issue a serial key to anyone other than the person who originally purchased the game, as this is a legal requirement set by our publisher. In order to receive a serial key you must contact the support team with your purchase information. The legal team is unable to issue serial keys for anyone but the original purchaser.
