If you need to launch various programs, websites or items on your computer, you must choose the best possible option. If you use your computer mainly for web surfing, and require access to local data or other applications, chances are that you probably rely on different software options that enable you to do just that. Thankfully, nowadays there is an abundance of dedicated applications that can help you access all your preferred items in an efficient manner. One of the aforementioned applications is Jovial Menu Cracked 2022 Latest Version. A utility with a streamlined interface Jovial Menu allows you to access various items, whether local or online, in an easy, efficient manner. It comes with a simplistic layout that can be easily tweaked so that it better suits your preferences. Customizing the interface can be done by editing the corresponding INI file, according to the helpful tips enclosed inside the document. Thus, it is possible that you can add new programs, web addresses or new document creation handles to the menu. Organize your items by placing them in different folders. Additionally, you can create new category folders and use them to better organize your items by editing the same INI file you use to add new programs to the list. Creating a folder can be done by typing the desired name between brackets. Typing three hyphens between brackets saves the corresponding item in the root location of your menu, under no category menu. This might come in handy for frequently accessed programs, websites or items that do not fit under any category. Silently runs in your system tray. This application rarely interferes with any of your active applications, as it discreetly runs in your system tray and accessing its interface can be done exclusively by right-clicking its icon. Unfortunately, it does not feature hotkey support that might provide you with higher overall accessibility. As a conclusion, Jovial Menu is a lightweight application that allows you to access various items and locations, local or online, in an easy, convenient manner. It comes with a lightweight interface that allows you to customize its components in an intuitive manner.
