However, they aren't appearing. The path to the image is fine (it is inside the public directory) and it does show when I link to the image directly (I'm using the standard image_tag in the view: The post.image.url looks like: I'm getting the image in the console: image.png And in the view, I'm getting the preview: There is no error returned, the image just isn't showing up. A: You can change image_tag to image_path only: Reference: documentation BTW, you can use image_ 82138339de
