What's new in this version: CRC32 and MD5 hash algorithms have been added to the ciperf command Now located in the Tools section Adjustable size of chart column The program can now be found within the Tools section of the Start menu Other bugs fixed

Hello I have a character mode VCR (TMS-9918H) and I want to use it with my laptop which uses the WDM driver. I noticed that whenever I record something with the VCR, the VCR does not record sound using the built in audio adapter and I can not change this setting. I need to use character mode, but I can't seem to get the VCR to record using 09e8f5149f
