What's New in the ITunesFusion?

iTunesFusion is a third party software tool that allows you to export your iTunes playlists to MP3 players. This application is designed to help you synchronize the contents of your iTunes playlists to your MP3 player, as well as import MP3 files to your iTunes library. This tool is compatible with both Mac and Windows PC. iTunesFusion installs and runs with no issues. For iTunes to work you must

have iTunes running. After installation is complete, you will see a small icon in the system tray which indicates the app is working. After selecting a destination folder, this application will allow you to select one or more iTunes playlists from which to export. You can even select a predefined list of playlists from which to export. Once you have selected the playlist you wish to export, you can choose to export all playlists or only the playlists you wish to synchronize to your MP3 player. Once the playlist is exported, you can proceed to add it to the iPod or other player of your choice, using the supplied Import option. You can also delete the exported playlist if you wish.
