I want to know if it is possible to upload youtube videos using phonegap? I have created a simple HTML5 page that you can access on any web browser. I have come up with 2 approaches to upload videos: download the video, upload it to youtube download the video, encode it into a base64 string and upload it I have experimented with the phonegap file transfer API and I was able to get it to work in the browser but not when I try the same in the android emulator. I get the following error in the browser: org.apache.cordova.filetransfer.FileTransfer\$FileTransferError@457f47f8 Any help on this issue would be greatly appreciated. A: Not sure
