My code is below. from bs4 import BeautifulSoup import re import urllib.request html_doc = urllib.request.urlopen("") soup = BeautifulSoup(html_doc, "html.parser") print(soup.find('title').string) This will give me the title, but I have no idea how to remove all the tags and only get the text inside the title tag. A: You can use this script to remove all tags from your title. #!/usr/bin/env python3 # -*- coding: utf-8 -*- import sys from urllib.request import urlopen from bs4 import BeautifulSoup html_doc = urlopen("") soup = BeautifulSoup(html_doc, "html.parser") title = soup.find('title').contents[0] title = title.strip() title = title.replace(' ', '') title =
