I once worked for a company that played games with their customers they would.Sony's latest software update for the PS4 adds support for Remote Play for iOS and Android devices, allowing players to stream video, audio and more to their consoles over the internet. Details of the update were announced by Director of PlayStation Network Service Delivery John Koller, who said that the update will be available "immediately." The update will also change the PS4's Remote Play logo to a PS4 specific version, as well as streamline the process of updating. Koller said that players' games will automatically update to "fit the new logo", but there will be a brief window where Sony is still updating their servers to fit new
