A simple "reverse lookup" for Netgear products. This will list the product names and the corresponding available WAN interfaces, using the Netgear SOHO printers and WiFi devices. Not suitable for WAP/WiFi and 3G devices. Users can connect devices to the local network and be able to browse and access all the files from all the devices in the network. file sharing is built in so all the files can be accessed, browsed, copied, moved etc. This tool is a "rviewer/viewer" for Intel files. All Intel files can be viewed in memory with this tool. It does not extract or compress the files. It just allows you to browse the files/folders/URLs. This tool is amazing! Of course it needs a lot of memory. For private use you can download a trial version. With trial you can browse up to 8MB. Have fun! A little app to download all the videos you can find using Youtube-dl. The extension is .mp4. You can paste the link or just type the address in the

addressbar. The current version does not download from your mobiles, just from the PC browser. Ever had a requirement, like an HP Printer, lazer printer, Brother printer etc? Then you have to search the internet for any driver to install and everytime you look for a driver you need to search for updates etc. After a long time you loose patience and you end up installing a new printer. PiniPad does just that. It pulls the printer info from the Internet and all you need to do is click and install it. Advantage:
* Fast * Fast * No ISP intercept Sort a file alphabetically from start
