Navigation menu If I manually save the file it works like a charm. But when I run the Project it still gives me the error. I tried to delete all project files. But this didn't help. A: It has always been a problem, and I'm not sure if there is a way to get around it. As far as I know, you can use the same license only with the new or previous version of the application, once a certain threshold is exceeded. However, you can always acquire the license for the older version (or whatever version number you are not using) and then add it to your project. In this case, we have to replace the dlls and the exe files. If it is not possible for you to downgrade, is it possible to create a new license, and then try to delete the old one? Introduction ======= There is widespread consensus that the diagnosis of DSM-IV^a^ sleep-disordered breathing (SDB) in children is sub-optimal; we aimed to replicate and extend previous studies. Methods ====== Children and young people (aged 3-20 years) who were referred to an acute tertiary paediatric hospital had their sleep monitored by video-EEG overnight and were screened for risk factors for SDB. Demographic and clinical information were collected via structured interviews. Results ====== Of 634 children referred to sleep monitoring between August 2008 and June 2011, 507 (80%) had a recording of good quality (n = 519 recordings). The median (IQR) age at the time of evaluation was 10.2 (6.7-14.7) years. Among the children under the age of 5 years, 18 (6.3%) had SDB (n = 10 obstructive, n = 6 central), compared with 48 (23.8%) of the children aged5-20 years  $(\chi^2^2 = 74.3, *P*)$
