All files and apps have been scanned for viruses and are guaranteed 100% safe. Q: Mage/cache/block/revert_block_notice on catalog page I have a block that I use to display some products in my custom theme like this: `getCollection(); $collection->addCategoryFilter(7); foreach($collection as $product) { echo $product->getName(); } ?>` In my local.xml I have this: `cache/notice cache/notice` And my cache directory contains one file `catalog.xml`. If a product is added to the cart a notice will appear in the form: `cache/notice` But this notice is not appearing on my catalog pages, they show up but empty. I have tried making another notice with `setInlineMessage` and it works fine there, like this: `cache/notice` But I don't understand how it appears on catalog pages and not just the product view page. Any help is highly appreciated.
