Desktop wallpaper, desktop icons and taskbar are hidden when Phantom Desktop Screen Saver is activated. Phantom Desktop Screen Saver allows you to set the desktop wallpaper or any other BMP image as the background, and to specify the speed at which the effects will take place. You can set it to conceal all of the windows (including desktop icons) and the taskbar into a single display. The screen saver will then be full-screen. When activated, Phantom Desktop Screen Saver hides all desktop windows, taskbar and desktop icons, and replaces them with a blank white desktop. Installation: Unzip the downloaded file. If the file is compressed, double-click the file to open. Double-click PhantomDesktopScreenSaver.exe. Run the application. Select any of the displayed images to set it as the desktop wallpaper. Select a transition effect. Select the length of the transition effect. Select the type of the display. (Full, Hidden or Here & Now.) Note: To exit the application, press Ctrl+Break. Changelog: 03-27-2011: Version 1.2 New features: Auto Update: Now, Phantom Desktop Screen Saver will update itself automatically if you allow it to do so in the Options menu. Enter Exit: Now, you can exit the application by pressing Ctrl+Break or by clicking on the Close button in the Options menu. Improved sound: The application now uses muted sounds instead of the old sound effects. 01-22-2010: Version 1.1 New features: In the Options window, when you select a transition effect that you don't want to perform, Phantom Desktop Screen Saver will no longer apply the effect. In the configuration menu, you can now select the type of the display: full, hidden, here & now. Previous versions: Version 1.0 Phantom Desktop Screen Saver was created for people who wish to create a computer screen saver by loading the desktop wallpaper or any other BMP image on their computer. It allows you to set the desktop wallpaper or any other BMP image as the background, and to specify the speed at which the effects will take place. When activated, Phantom Desktop Screen Saver hides all application windows, desktop icons and the MS Windows taskbar, replacing them with a blank desktop.
