We're big fans and think it's the best-in-class football game on the market. It's focused on passing and how you use it, and its ability to get players out of trouble and make clever calls. We've got a new video below explaining the changes in passing, and where FIFA will take you in terms of crossing. For every passing shot, a player at the receiving end – who is in an offside position – will have to decide whether to: cautiously accept, confident that he'll get past the ball and the opposition's defender reject, knowing it's a good chance but that the defensive line will stymie him. You can see why that's a
