Bookmark Docs Review Download at: When you install Kofax, you have the option to create, edit, manage and convert documents as needed. However, if your documents are stored in disparate or non-Microsoft file formats, Kofax alone is not enough to support them. Kofax Classic Linker is a simple solution to this problem. With links to document available in various formats, you can open them in Kofax or share them with others. If your document formats are not supported by Kofax Classic Linker (CSL), it will prompt you to find an alternate application that does support it. The application allows you to send documents as links to a website or to a local folder. Clicking the link will open the document in your preferred application (in most cases, this is your preferred web browser). Key features include: * Works with web browsers * You can get links of any kind: * Microsoft Word, Excel, Powerpoint, OneNote, or even web browsers. You can even create a link of a web page, Google Maps, a YouTube video, Twitter, or any other URL. * You can create links to documents in a flat text file format * Automatically supports PDF documents * Export links to the clipboard * Send documents to a web server or a shared folder. * Supported file formats include: * Open Office files, Open XML, MS Word, Excel, PowerPoint, OneNote, HTML, PDF, xHTML,
