What's new in Fifa 22:

- **FIFA Ultimate Team:** Whether the nuttiest, randomest, or most amazing of real-life players have made their way onto your Squad, you can now build the Ultimate team of all time in FIFA 22 Ultimate Team, as well as play online, in your weekend game from the comfort of your sofa.
- **New ways to score shots:** New Attack animations mean you're in FIFA 22 to play how you want, with new ways to score and evade defenders. Hurry and kick, jump, twist, sweep, flick, prod and you're in control of goal-scoring opportunities from open-play situations on every surface.
- **New ways to pass the ball:** Touch a few times, kick once, flick, spin, run, lunge and your players connect with the ball. FIFA 22 has greater player options at your disposal to create plays and opportunities to pass it around
- **Smart Defending:** New AI based Match Day rules have evolved using behavioural data derived from previous real match data matches to create more realistic and more predictable opponents. Especially notable are changes to AI defences.
- **Look Away:** New look away animations and plays mean defenders now see your run towards them from further away and, as a result, defences will appear more aggressive in closing down without question.
- **Wider variety:** With new intuitive controls for ball handling and shooting techniques and a wider array of skills in the Move Master and Dribble Master options, you can do more than ever before.
- **Improved passing:** New First Touch Pass Control makes all passes better by improving the ball's behaviour in the weak areas of the pitch, making more passes both on-target and off-target as defenders are less able to pressure you.
- **New tackling animations:** And with more variety of tackling, including new types of tackles, look away, takedowns and other new levels of context in on-ball tackles, defenders will now successfully tackle you more times per 90 minutes, making for a more realistic and exciting game.
- **New shooting and finishing:** New accurate long shots mean you'll net long-range efforts more consistently and that defenders will now retreat if you're too close.
- **Better Dynamic 3D Seasons:** Seeding your team to the top-flight has never been easier. And placing
