Oekaki is an arcade-style game where you have to make sushi out

of the matching sushi ingredients on the sushi bar. It uses the unique touchscreen feature of the iPad, allowing you to combine sushi ingredients into the perfect sushi on the bar. The game is divided into three game modes: cooking mode, fish picker mode, and the professional practice mode. The cook mode and fish picker mode are the real test for the game. In cook mode you are given all the ingredients to make the perfect sushi, however you need to adapt your form to use the ingredients. If you try to make the perfect sushi, the success rate will drop and you will get a 'sushi con'! The more you make, the better you will get at it. If you go too far, the success rate will be lowered even more.

France will impose sanctions on India over a spy scandal after a UN arms inspector confirmed that one of its agents was hired by a French company to "destabilise India's defence and security" in the country. UN weapons inspectors said on Saturday the agent, arrested over spying allegations in November, was "acting under orders to destabilise India's defence and security" and to "generate distrust towards India." A multi-agency probe is under way in France after documents revealed that one of the main suspects in the case was for six years an employee of the French company, Th b7e8fdf5c8
