A: \$date = date('H:i'); // actually returned time echo \$date; The format H:i is for 12 hour clock. If you are trying to print 24 hour time, You are wrong. It should be H:i:s. If you are trying to print the time of the current day, It should be written like this H:i:s So how to play Tout suite sans versionnement sur Google? Just run it offline. Lancer à tout prix Chaque application n'est pas conçue pour s'intégrer à l'action de l'équipe. La tâche la plus simple est de voir si l'application est conçue pour être mise en cache dans la mémoire de l'équipe ou si elle est conçue pour être en permanence affiché à l'écran de l'équipe. C'est la même question que l'on pose à propos de la présence d'une version chromé du site. Ce qui est aussi positif, c'est qu'il est possible d'avoir des informations supplémentaires, comme la version courante d'un nouveau produit. Pour le moment, le parcours et la nouvelle version sont toujours affichés sur les métadonnées de Google. Ce qui est assez simple, c'est que la présence de ces métadonnées n'est jamais demandée et, pour les étudiants, il est très courant qu'ils ne s
