Go To Youtube -Â www.vcdslite12fullregisteredactivatedrar.eu You may hear abit of buzzing/popping when you play my movies/songs from the past. That is not mine. That is a result of using old files of my PC which were corrupted and when I removed them, I had a paper cut. I have removed the videos from youtube but the links are still there and I am not uploading my

old videos here. I have changed my mind about this website. My intention was to upload old files of mine and make people watch them. But the thing is that I am not talented enough to create HD videos, so I gave up. So I decided to make a music video of every track that I had uploaded and that is why you see this website. On my other website (DRM Protected Movies & Songs - www.vcdslite12fullregisteredactivatedrar.eu) you will find me uploading old movies in Mp4 and M4A formats as well as working tracks in MP3, M4A
