This is when you receive the license. The activation is very simple to do, just follow the steps below and you can activate your

Adobe CS6 or Adobe CC. It will take just a few seconds. Activate Adobe Activation: First you should download the ActiveState License Activation Tool. After you have downloaded the tool, run it. The tool will start downloading the latest license update from ActiveState. When the process has finished, you will see a confirmation page that shows that the download was successful. After you see the confirmation page, you need to click the download button. After that, you need to wait for the activation file to download. When the activation file has finished downloading, open it. You will then need to select the product key that you have received from your Adobe Activation CD. You will then click the Activate button. After you have activated your Adobe CS6 or Adobe CC product, it is recommended to run the Adobe Hardware Diagnostic Tool.
