Vasodilator therapy with isosorbide dinitrate was evaluated in 9 patients with malignant hypertension. Plasma renin activity and blood pressure did not change significantly in response to therapy, but renal vascular resistance decreased by 44.4% (p less than 0.005) and iliac vascular resistance decreased by 37.2% (p less than 0.005). Oral nifedipine, 40 to 120 mg. daily, was evaluated in 8 patients. Plasma renin activity and blood pressure decreased significantly in response to therapy. Iliac vascular resistance decreased in 6 patients (45.2%, p less than 0.005). Six patients had isosorbide dinitrate therapy followed by nifedipine therapy for control of hypertension; the mean decrease in blood pressure was 41/18 mm Hg (p less than 0.05). In the placebo group, the change in blood pressure was -2/1 mm Hg. No therapy-related adverse effects were observed.Q: EF 6 Custom Database Migrations I am looking to build a custom migration framework for use with EF6. I would like to build a class, that inherits DbMigration, and have it built using the GenerateMigration command line tool. The framework would handle all the work from pre-compiling to running, saving the migration in a table, to automatically upgrading when running. There was an answer here with great help: My problem now is that it's failing for me with a missing member error on a class that has been made as a partial. If I add the missing members to the class, it no longer inherits DbMigration, and it fails with an error from T4. How can I build the class to inherit Db
