Haidar elharbarmand.The present invention relates to a novel, easy-to-use sealant composition, the method of use thereof and the application thereof, which is particularly useful in the sealing of carton containers. More specifically, the present invention relates to a sealant composition, the use thereof and the application thereof, which is particularly useful in the sealing of carton containers to prevent spillage of liquid or flow therefrom. In the packaging of food products, there exists a need for improved sealing of the package, in particular for container packages containing a beverage, such as milk. According to the present invention, there is provided a sealant composition, the method of use thereof and the application thereof, which is particularly useful in the sealing of carton containers such as milk cartons, and which prevents the spillage of liquid or flow therefrom. In one aspect of the present invention there is provided a sealant composition comprising: (a) a water-containing sealant composition wherein: (i) the water-containing sealant composition comprises: (a1) from about 75 to about 95 parts by weight of water, (a2) at least one olefin-containing polymer in an amount of from about 5 to about 50 parts by weight; (a3) a crosslinking agent for the olefin-containing polymer in an amount of from about 0.1 to about 20 parts by weight, (a4) a plasticizer for the olefin-containing polymer in an
